For General Debility, from which Ladies frequently suffer, there is not the equal in the whole Materia Medica.

The inventor of this preparation was for three years s completely prostrated from Dyspepsia and inactivity of the Liver that he was frequently for weeks at a time unable to raise himself from his bed. He sought aid from physicians at home and in Europe, but in vain; his case was pronounced hopeless by thousands, and it was by accident that he succeeded in curing himself. Since he has been practicing medicine, his success in such cases has been unrivalled. He has been aware of the incredulity of the public, and consequently said nothing through the press of his own case, until the character of the medicine was fully established by its success, as shown by the certificates which have been advertised. by its success, as shown by the certificates which have been advertised.

Henryville, Oct. 17, 1852. Dr. Bertson:—Some time has elapsed since I gave a certificate that my wife had been greatly benefited by your Alterative Compound.
